

Lindab **UltraLink**[®] **Cover Plate FTPC**

Mounting instruction

Using FTFC may affect the strength of the Bluetooth signal. Which means that the working distance between a sensor and the UltraLink, may be reduced.

Most of us spend the majority of our time indoors. Indoor climate is crucial to how we feel, how productive we are and if we stay healthy.

We at Lindab have therefore made it our most important objective to contribute to an indoor climate that improves people's lives. We do this by developing energy-efficient ventilation solutions and durable building products. We also aim to contribute to a better climate for our planet by working in a way that is sustainable for both people and the environment.
