

Plenum box

WB

Description

WB is a plenum box for supply air intended to achieve a stable flow to rectangular front plates or grilles. WB is equipped with an adjustment damper and pressure measuring device. The plenum box can be connected from the side or the back. The adjustment damper is operated from the front of the box by means of a graduated handle with integrated locking mechanism.

WB is equipped with a telescopic connection that can be adjusted up to 50 mm, which provides flexibility during the installation phase. WB has a maximum width of 500 mm, which ensures that you can install the box in a standard wall structure with a centre distance of 600 mm between the plasterboard struts.

- Telescopic function
- Easy-to-detach face plate for access to duct
- Same box used for all front types

Order code

See section on wall diffusers.

Order code

Product	WB	a	A x B
Type	WB		
Connctction	1 = Bag 2 = Side		
Size (A x B)	300x100 - 500x300		

Example: WB-1-400x150

Dimension

A x B	Ød ₁		A	B	Back L ₁	Side L ₂	Weight
	nom						Kg
300 x 100	80		300	100	240-290	280-330	2.5
